What:

Join GLOBE Legislators, WWF, and ClientEarth at COP29 for the launch of a joint statement advocating for strengthened NDCs 3.0 and next-generation Framework Climate Laws. This event will highlight the importance of NDCs 3.0 in response to the First Global Stocktake, exploring how parliamentarians can drive this ambition forward in their national contexts.

Why:

Robust Framework Climate Laws are essential for depoliticizing climate efforts, enhancing the integration of climate and nature, and ensuring the full realization of a nation's climate commitments. These laws will provide a durable legal foundation to guide countries in safeguarding a healthier, sustainable future for all.
